If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01. Regulation FD Disclosure.

On January 7, 2025, Murphy Oil Corporation (the “Company”) announced that Murphy Cuu Long Tay Oil Co., Ltd., an indirect wholly-owned subsidiary of the Company, drilled an oil discovery at the Hai Su Vang-1X exploration well in Block 15-2/17 in the Cuu Long Basin, located 40 miles offshore Vietnam. A copy of the Company’s news release announcing this is attached hereto as Exhibit 99.1.

On January 8, 2025, Eric M. Hambly, President and Chief Executive Officer of the Company, will speak on a panel and host investor meetings in connection with the Company’s attendance at the Goldman Sachs Energy, CleanTech & Utilities Conference 2025. Attached hereto as Exhibit 99.2 is a copy of the presentation prepared by the Company in connection therewith.

The information in this Item 7.01, including Exhibits 99.1 and 99.2, is being furnished and shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (“Exchange Act”), or otherwise subject to the liabilities of that Section, and shall not be incorporated by reference into any registration statement or other document pursuant to the Securities Act of 1933, as amended, or the Exchange Act, except as otherwise expressly stated in such filing.

This Current Report on Form 8-K, including the information furnished pursuant to Item 7.01 and the related Item 9.01 hereto, contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are generally identified through the inclusion of words such as “aim”, “anticipate”, “believe”, “drive”, “estimate”, “expect”, “expressed confidence”, “forecast”, “future”, “goal”, “guidance”, “intend”, “may”, “objective”, “outlook”, “plan”, “position”, “potential”, “project”, “seek”, “should”, “strategy”, “target”, “will” or variations of such words and other similar expressions. These statements, which express management’s current views concerning future events, results and plans, are subject to inherent risks, uncertainties and assumptions (many of which are beyond our control) and are not guarantees of performance. In particular, statements, express or implied, concerning the company’s future operating results or activities and returns or the company’s ability and decisions to replace or increase reserves, increase production, generate returns and rates of return, replace or increase drilling locations, reduce or otherwise control operating costs and expenditures, generate cash flows, pay down or refinance indebtedness, achieve, reach or otherwise meet initiatives, plans, goals, ambitions or targets with respect to emissions, safety matters or other ESG (environmental/social/governance) matters, make capital expenditures or pay and/or increase dividends or make share repurchases and other capital allocation decisions are forward-looking statements. Factors that could cause one or more of these future events, results or plans not to occur as implied by any forward-looking statement, which consequently could cause actual results or activities to differ materially from the expectations expressed or implied by such forward-looking statements, include, but are not limited to: macro conditions in the oil and gas industry, including supply/demand levels, actions taken by major oil exporters and the resulting impacts on commodity prices; geopolitical concerns; increased volatility or deterioration in the success rate of our exploration programs or in our ability to maintain production rates and replace reserves; reduced customer demand for our products due to environmental, regulatory, technological or other reasons; adverse foreign exchange movements; political and regulatory instability in the markets where we do business; the impact on our operations or market of health pandemics such as COVID-19 and related government responses; other natural hazards impacting our operations or markets; any other deterioration in our business, markets or prospects; any failure to obtain necessary regulatory approvals; any inability to service or refinance our outstanding debt or to access debt markets at acceptable prices; or adverse developments in the U.S. or global capital markets, credit markets, banking system or economies in general, including inflation. For further discussion of factors that could cause one or more of these future events or results not to occur as implied by any forward-looking statement, see “Risk Factors” in our most recent Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (“SEC”) and any subsequent Quarterly Report on Form 10-Q or Current Report on Form 8-K that we file, available from the SEC’s website and from Murphy Oil Corporation’s website at <http://ir.murphyoilcorp.com>. Investors and others should note that we may announce material information using SEC filings, press releases, public conference calls, webcasts and the investors page of our website. We may use these channels to distribute material information about the company; therefore, we encourage investors, the media, business partners and others interested in the company to review the information we post on our website. Murphy Oil Corporation undertakes no duty to publicly update or revise any forward-looking statements.

MURPHY OIL CORPORATION

By: /s/ Paul D. Vaughan
Name: Paul D. Vaughan
Title: Vice President and Controller

NEWS RELEASE

MURPHY OIL CORPORATION ANNOUNCES OIL DISCOVERY AT HAI SU VANG-1X IN OFFSHORE VIETNAM

HOUSTON, Texas, January 7, 2025 – Murphy Oil Corporation (NYSE: MUR) today announced that its subsidiary has drilled an oil discovery at the Hai Su Vang-1X exploration well in Block 15-2/17 in the Cuu Long Basin, located 40 miles offshore Vietnam. The well was drilled to total depth of 13,124 feet in 149 feet of water. Hai Su Vang-1X encountered approximately 370 feet of net oil pay from two reservoirs.

Additional evaluation is ongoing and future appraisal drilling will be conducted.

Hai Su Vang is one of multiple exploration prospects that Murphy has identified in the basin. The findings announced today could form the basis for future development of the Hai Su Vang field.

Murphy's subsidiary, Murphy Cuu Long Tay Oil Co., Ltd., is the operator of the block with 40 percent working interest. PetroVietnam Exploration Production Corporation Ltd. holds 35 percent working interest and SK Earthon Co., Ltd. holds the remaining 25 percent.

"I am pleased with the success of the Hai Su Vang-1X exploration well. This discovery adds further upside to our current Vietnam business," said Eric M. Hambly, President and Chief Executive Officer. "We look forward to working with our partners as we continue evaluating the results."

ABOUT MURPHY OIL CORPORATION

As an independent oil and natural gas exploration and production company, Murphy Oil Corporation believes in providing energy that empowers people by doing right always, staying with it and thinking beyond possible. Murphy challenges the norm, taps into its strong legacy and uses its foresight and financial discipline to deliver inspired energy solutions. Murphy sees a future where it is an industry leader who is positively impacting lives for the next 100 years and beyond. Additional information can be found on the company's website at www.murphyoilcorp.com.

FORWARD-LOOKING STATEMENTS

This news release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are generally identified through the inclusion of words such as "aim", "anticipate", "believe", "drive", "estimate", "expect", "expressed confidence", "forecast", "future", "goal", "guidance", "intend", "may",

“objective”, “outlook”, “plan”, “position”, “potential”, “project”, “seek”, “should”, “strategy”, “target”, “will” or variations of such words and other similar expressions. These statements, which express management’s current views concerning future events, results and plans, are subject to inherent risks, uncertainties and assumptions (many of which are beyond our control) and are not guarantees of performance. In particular, statements, express or implied, concerning the company’s future operating results or activities and returns or the company’s ability and decisions to replace or increase reserves, increase production, generate returns and rates of return, replace or increase drilling locations, reduce or otherwise control operating costs and expenditures, generate cash flows, pay down or refinance indebtedness, achieve, reach or otherwise meet initiatives, plans, goals, ambitions or targets with respect to emissions, safety matters or other ESG (environmental/social/governance) matters, make capital expenditures or pay and/or increase dividends or make share repurchases and other capital allocation decisions are forward-looking statements. Factors that could cause one or more of these future events, results or plans not to occur as implied by any forward-looking statement, which consequently could cause actual results or activities to differ materially from the expectations expressed or implied by such forward-looking statements, include, but are not limited to: macro conditions in the oil and gas industry, including supply/demand levels, actions taken by major oil exporters and the resulting impacts on commodity prices; geopolitical concerns; increased volatility or deterioration in the success rate of our exploration programs or in our ability to maintain production rates and replace reserves; reduced customer demand for our products due to environmental, regulatory, technological or other reasons; adverse foreign exchange movements; political and regulatory instability in the markets where we do business; the impact on our operations or market of health pandemics such as COVID-19 and related government responses; other natural hazards impacting our operations or markets; any other deterioration in our business, markets or prospects; any failure to obtain necessary regulatory approvals; any inability to service or refinance our outstanding debt or to access debt markets at acceptable prices; or adverse developments in the U.S. or global capital markets, credit markets, banking system or economies in general, including inflation. For further discussion of factors that could cause one or more of these future events or results not to occur as implied by any forward-looking statement, see “Risk Factors” in our most recent Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (“SEC”) and any subsequent Quarterly Report on Form 10-Q or Current Report on Form 8-K that we file, available from the SEC’s website and from Murphy Oil Corporation’s website at <http://ir.murphyoilcorp.com>. Investors and others should note that we may announce material information using SEC filings, press releases, public conference calls, webcasts and the investors page of our website. We may use these channels to distribute material information about the company; therefore, we encourage investors, the media, business partners and others interested in the company to review the information we post on our website. The information on our website is not part of, and is not incorporated into, this news release. Murphy Oil Corporation undertakes no duty to publicly update or revise any forward-looking statements.

Cautionary Statement

Cautionary Note to US Investors – The United States Securities and Exchange Commission (SEC) requires oil and natural gas companies, in their filings with the SEC, to disclose proved reserves that a company has demonstrated by actual production or conclusive formation tests to be economically and legally producible under existing economic and operating conditions. We may use certain terms in this presentation, such as “resource”, “gross resource”, “recoverable resource”, “net risked PMEAN resource”, “recoverable oil”, “resource base”, “EUR” or “estimated ultimate recovery” and similar terms that the SEC’s rules prohibit us from including in filings with the SEC. The SEC permits the optional disclosure of probable and possible reserves in our filings with the SEC. Investors are urged to consider closely the disclosures and risk factors in our most recent Annual Report on Form 10-K filed with the SEC and any subsequent Quarterly Report on Form 10-Q or Current Report on Form 8-K that we file, available from the SEC’s website.

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are generally identified through the inclusion of words such as “aim”, “anticipate”, “believe”, “drive”, “estimate”, “expect”, “expressed confidence”, “forecast”, “future”, “goal”, “guidance”, “intend”, “may”, “objective”, “outlook”, “plan”, “position”, “potential”, “project”, “seek”, “should”, “strategy”, “target”, “will” or variations of such words and other similar expressions. These statements, which express management’s current views concerning future events, results and plans, are subject to inherent risks, uncertainties and assumptions (many of which are beyond our control) and are not guarantees of performance. In particular, statements, express or implied, concerning the company’s future operating results or activities and returns or the company’s ability and decisions to replace or increase reserves, increase production, generate returns and rates of return, replace or increase drilling locations, reduce or otherwise control operating costs and expenditures, generate cash flows, pay down or refinance indebtedness, achieve, reach or otherwise meet initiatives, plans, goals, ambitions or targets with respect to emissions, safety matters or other ESG (environmental/social/governance) matters, make capital expenditures or pay and/or increase dividends or make share repurchases and other capital allocation decisions are forward-looking statements. Factors that could cause one or more of these future events, results or plans not to occur as implied by any forward-looking statement, which consequently could cause actual results or activities to differ materially from the expectations expressed or implied by such forward-looking statements, include, but are not limited to: macro conditions in the oil and gas industry, including supply/demand levels, actions taken by major oil exporters and the resulting impacts on commodity prices; geopolitical concerns; increased volatility or deterioration in the success rate of our exploration programs or in our ability to maintain production rates and replace reserves; reduced customer demand for our products due to environmental, regulatory, technological or other reasons; adverse foreign exchange movements; political and regulatory instability in the markets where we do business; the impact on our operations or market of health pandemics such as COVID-19 and related government responses; other natural hazards impacting our operations or markets; any other deterioration in our business, markets or prospects; any failure to obtain necessary regulatory approvals; any inability to service or refinance our outstanding debt or to access debt markets at acceptable prices; or adverse developments in the U.S. or global capital markets, credit markets, banking system or economies in general, including inflation. For further discussion of factors that could cause one or more of these future events or results not to occur as implied by any forward-looking statement, see “Risk Factors” in our most recent Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission (“SEC”) and any subsequent Quarterly Report on Form 10-Q or Current Report on Form 8-K that we file, available from the SEC’s website and from Murphy Oil Corporation’s website at <http://ir.murphyoilcorp.com>. Investors and others should note that we may announce material information using SEC filings, press releases, public conference calls, webcasts and the investors page of our website. We may use these channels to distribute material information about the company; therefore, we encourage investors, the media, business partners and others interested in the company to review the information we post on our website. The information on our website is not part of, and is not incorporated into, this presentation. Murphy Oil Corporation undertakes no duty to publicly update or revise any forward-looking statements.

Murphy at a Glance

Murphy is an independent exploration and production company, with a diverse portfolio that provides exploration upside

Multi-Basin Production

Gulf of Mexico

Deepwater execution ability is a competitive advantage

Offshore Canada

Non-operated partner in Terra Nova and Hibernia fields

Onshore United States

Eagle Ford Shale on private lands in Texas with ~1,200 future locations on ~120,000 net acres

Onshore Canada

Tupper Montney ~1,000 future locations on ~120,000 net acres
Kaybob Duvernay ~500 future locations on ~110,000 net acres

3Q 2024 Production¹

High-potential exploration focused in Gulf of Mexico, Vietnam, Côte d'Ivoire

Financial discipline maintaining leading balance sheet

Long history of delivering shareholder returns through dividends and share buybacks

Meaningful board and management ownership, supported by multi-decade founding family

2023 Proved Reserves¹

¹ Excluding noncontrolling interest. Proved reserves are based on year-end 2023 third-party audited volumes using SEC pricing. Figures may not add to 100 percent due to rounding
Note: Future locations and net acres as of December 31, 2023

■ US Onshore ■ Offshore ■ Canada Onshore

MURPHY PRIORITIES

Advancing Strategic Priorities

DELEVER

- Reduced debt by \$50 MM in YTD 3Q 2024¹
- Called \$79 MM of senior notes to achieve debt-neutral transactions as planned in 4Q 2024
- Committed to achieving long-term debt goal of ~\$1.0 BN

EXECUTE

- Produced 185 MBOEPD in 3Q 2024
- Completed offshore workovers as planned and progressed new well program
- Delivered Eagle Ford Shale well program
- Initiated construction of the Lac Da Vang platform in Vietnam in 4Q 2024

EXPLORE

- Drilled discovery at operated Hai Su Vang-1X well in Vietnam
- Preparing to spud operated Lac Da Hong-1X well in Vietnam in 1Q 2025

RETURN

Progressed Murphy 3.0 of Capital Allocation Framework²

- YTD 2024³ repurchases totaled \$300 MM of stock, or 8.0 MM shares, at an average price of \$37.46 / share
- \$650 MM remaining under share repurchase authorization³

Production volumes and financial amounts exclude noncontrolling interest, unless otherwise stated

1 As of September 30, 2024

2 Murphy 3.0 is when long-term debt is less than or equals \$1.3 BN. During this time, a minimum of 50% of adjusted FCF is allocated to share buybacks and potential dividend increases, with the remainder of adjusted FCF allocated to the balance sheet

3 As of November 5, 2024

Consistent Discipline Drives Strong Financial Performance

Peer-Leading Performance in 3Q 2024

- Share buybacks are meaningful with low share count
- Financial strength provides sustainable returns
- Oil-weighted assets generate substantial free cash flow

Source: Bloomberg, Murphy internal analysis as of September 30, 2024
 1 Total cash return is defined as dividends paid (+) share repurchases divided by shares outstanding
 2 As defined in non-GAAP reconciliation slides in Appendix
 Peer group includes APA, CIVI, CNX, CTRA, DVN, EOG, HES, KOS, MGY, MTDR, OVV, RRC, SM, TALO

Total Cash Return per Share¹ \$ per share

Debt / TTM EBITDAX²

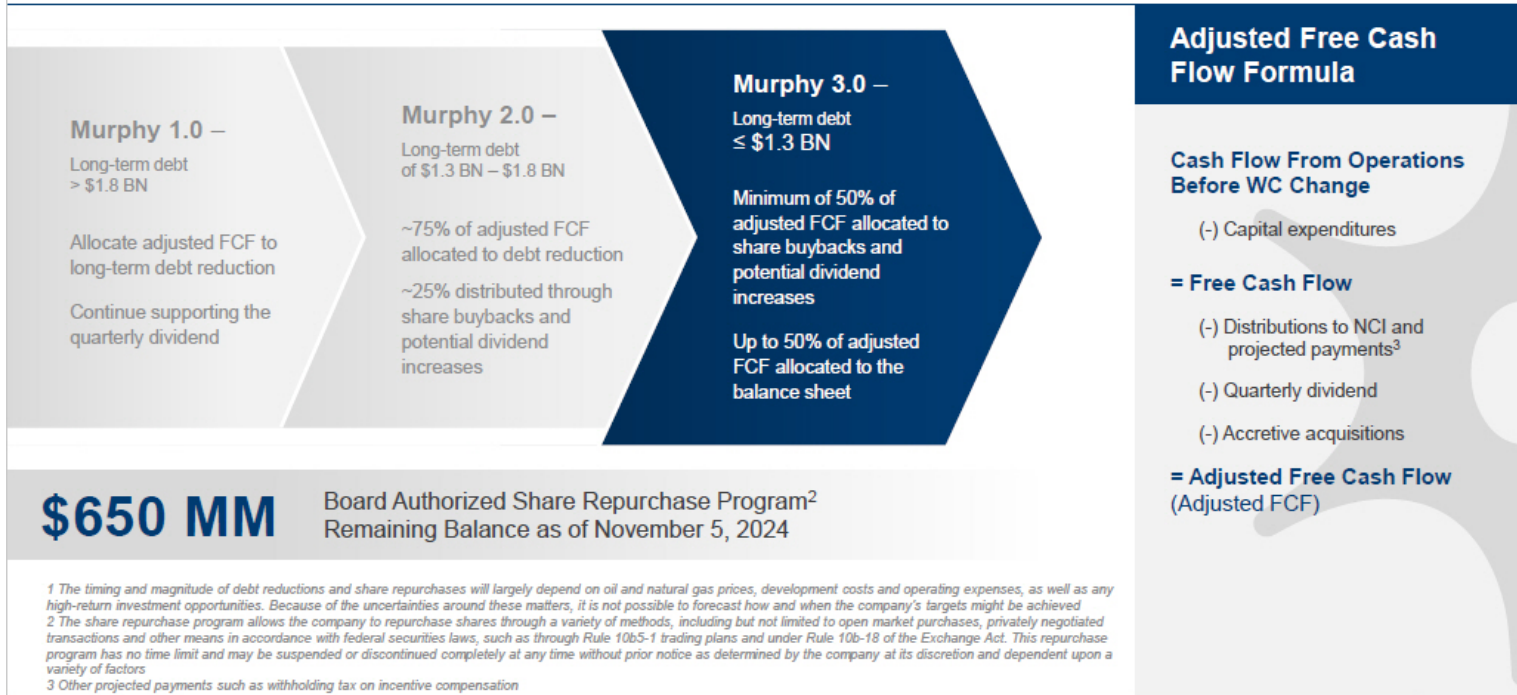

TTM Free Cash Flow² / EV Percentage

G&A / TTM EBITDAX² Percentage

Delivering Shareholder Returns Within Capital Allocation Framework¹

\$650 MM

Board Authorized Share Repurchase Program²
Remaining Balance as of November 5, 2024

¹ The timing and magnitude of debt reductions and share repurchases will largely depend on oil and natural gas prices, development costs and operating expenses, as well as any high-return investment opportunities. Because of the uncertainties around these matters, it is not possible to forecast how and when the company's targets might be achieved

² The share repurchase program allows the company to repurchase shares through a variety of methods, including but not limited to open market purchases, privately negotiated transactions and other means in accordance with federal securities laws, such as through Rule 10b5-1 trading plans and under Rule 10b-18 of the Exchange Act. This repurchase program has no time limit and may be suspended or discontinued completely at any time without prior notice as determined by the company at its discretion and dependent upon a variety of factors

³ Other projected payments such as withholding tax on incentive compensation

Reducing Debt While Generating Shareholder Returns

Consistent Focus on Balance Sheet and Increasing Shareholder Returns

- Reduced debt by ~60% since YE 2020
- Returned 110% of adjusted free cash flow to shareholders in YTD 2024¹ through buybacks
- Repurchased > 11 MM shares since Murphy 2.0 initiated in 3Q 2023
- Returned > \$4.1 BN to shareholders since 2012

Total Debt Reduction \$ MM

Shareholder Returns Since Framework Announced \$ MM

¹ As of November 5, 2024

- > 25 years of inventory < \$50 / BBL
- ~ 55 years of total inventory
- > 15 years of Eagle Ford Shale inventory < \$50 / BBL

Tupper Montney

- ~ 50 years of inventory

Tupper Montney – Natural Gas *Remaining Locations*

Eagle Ford Shale and Kaybob Duvernay – Oil *Remaining Locations*

As of December 31, 2023

Note: Breakeven rates are based on estimated costs of a 4-well pad program at a 10% rate of return. Tupper Montney inventory assumes an annual 20-well program. Eagle Ford Shale and Kaybob Duvernay combined inventory, and Eagle Ford Shale standalone inventory, assume an annual 30-well program.

Offshore Development Opportunities

Multi-Year Inventory of High-Return Projects

Diversified, Low Breakeven Opportunities in Offshore Portfolio

- Multi-year inventory of identified offshore projects in current portfolio
- Maintaining annual offshore production of 90 – 100 MBOEPD with average annual CAPEX of ~\$380 MM from FY 2024 – FY 2028

Projects Include

37
projects

209 MMBOE of total resources with < \$35 / BBL WTI breakeven

8
projects

20 MMBOE of total resources with \$35 to \$50 / BBL WTI breakeven

As of December 31, 2023

Note: Breakeven rates are based on current estimated costs at a 10% rate of return

Disciplined Strategy Leads to Long-Term Value With Current Assets

DELEVER

EXECUTE

EXPLORE

RETURN

NEAR-TERM

- Reducing debt to reach \$1.0 BN debt target in mid-2025¹ with no debt maturities until Dec 2027
- Reinvesting ~50% of operating cash flow to maintain average 53% oil-weighting near-term to enhance oil production long-term
- Delivering average production of ~195 MBOEPD with CAGR of 5%
- Maintaining offshore production average of ~95 MBOEPD
- Spending annual average CAPEX of ~\$1.1 BN
- Targeting enhanced payouts to shareholders through dividend increases and share buybacks while delevering
- Targeting first oil in Vietnam in 2026
- Drilling high-impact exploration wells in Gulf of Mexico, Vietnam and Côte d'Ivoire and conducting additional geophysical studies

LONG-TERM

- Realizing average annual production of 210-220 MBOEPD with > 50% average oil weighting
- Reinvesting ~45% of operating cash flow
- Allocating capital to high-returning investment opportunities for further growth in 2028+
- Exploration portfolio provides upside to plan
- Ample free cash flow funds further debt reductions, continuing cash returns to shareholders and accretive investments
- Achieving metrics that are consistent with an investment grade rating

2024

2025

2026

2027

2028

¹ As of August 7, 2024

Note: Strategy is as of January 25, 2024. Assumes \$75 WTI oil price, \$3.50 HH natural gas price and no exploration success.

Non-GAAP Financial Measure Definitions and Reconciliations

The following list of Non-GAAP financial measure definitions and related reconciliations is intended to satisfy the requirements of Regulation G of the Securities Exchange Act of 1934, as amended. This information is historical in nature. Murphy undertakes no obligation to publicly update or revise any Non-GAAP financial measure definitions and related reconciliations.

Non-GAAP Reconciliation

EBITDA and EBITDAX

Murphy defines EBITDA as net income (loss) attributable to Murphy¹ before interest, taxes, depreciation, depletion and amortization (DD&A). Murphy defines EBITDAX as net income (loss) attributable to Murphy before interest, taxes, DD&A and exploration expense.

Management believes that EBITDA and EBITDAX provide useful information for assessing Murphy's financial condition and results of operations and are widely accepted financial indicators of the ability of a company to incur and service debt, fund capital expenditure programs, pay dividends and make other distributions to stockholders.

EBITDA and EBITDAX, as reported by Murphy, may not be comparable to similarly titled measures used by other companies and should be considered in conjunction with net income, cash flow from operations and other performance measures prepared in accordance with generally accepted accounting principles (GAAP). EBITDA and EBITDAX have certain limitations regarding financial assessments because they exclude certain items that affect net income and net cash provided by operating activities. EBITDA and EBITDAX should not be considered in isolation or as a substitute for an analysis of Murphy's GAAP results as reported.

(Millions of dollars)	Trailing Twelve Months – Sept 30, 2024	Trailing Twelve Months – Sept 30, 2023
Net income attributable to Murphy (GAAP) ¹	473.1	744.7
Income tax expense	94.0	228.7
Interest expense, net	86.0	123.4
Depreciation, depletion and amortization expense ²	831.8	826.5
EBITDA attributable to Murphy (Non-GAAP)	1,484.9	1,923.3
Exploration expenses ²	200.4	183.6
EBITDAX attributable to Murphy (Non-GAAP)	1,685.3	2,106.9

¹ 'Attributable to Murphy' represents the economic interest of Murphy excluding noncontrolling interest in MP GOM

² Depreciation, depletion, and amortization expense and exploration expenses used in the computation of EBITDA and EBITDAX exclude the portion attributable to the noncontrolling interest (NCI)

Non-GAAP Reconciliation

Free Cash Flow

Presented below is free cash flow (a non-GAAP financial measure calculated as net cash provided by continuing operations activities, less non-cash working capital changes, property additions and dry hole costs). Management believes free cash flow is important information to provide as it is used by management to evaluate the Company's ability to generate additional cash from business operations. Free cash flow is a non-GAAP financial measure and should not be considered a substitute for other financial measures as determined in accordance with accounting principles generally accepted in the United States of America. Additionally, our definition of free cash flow is limited and does not represent residual cash flows available for discretionary expenditures due to the fact that the measure does not deduct the payments required for debt service and other obligations or payments made for business acquisitions. Therefore, we believe it is important to view free cash flow as supplemental to our entire statement of cash flows.

<i>(Millions of dollars)</i>	Trailing Twelve Months – Sept 30, 2024	Trailing Twelve Months – Sept 30, 2023
Net Cash provided by continuing operations activities (GAAP) ¹	1,838.5	1,707.3
Property additions and dry hole costs	(897.0)	(1,086.9)
Net increase (decrease) in non-cash working capital	(75.3)	148.6
Acquisition of oil and natural gas properties	(12.8)	-
Free Cash Flow (Non-GAAP)	853.4	769.0

¹ Includes noncontrolling interest in MP GOM

Non-GAAP Reconciliation

Free Cash Flow

Presented below is free cash flow (a non-GAAP financial measure calculated as net cash provided by continuing operations activities, less non-cash working capital changes, property additions and dry hole costs). Management believes free cash flow is important information to provide as it is used by management to evaluate the Company's ability to generate additional cash from business operations. Free cash flow is a non-GAAP financial measure and should not be considered a substitute for other financial measures as determined in accordance with accounting principles generally accepted in the United States of America. Additionally, our definition of free cash flow is limited and does not represent residual cash flows available for discretionary expenditures due to the fact that the measure does not deduct the payments required for debt service and other obligations or payments made for business acquisitions. Therefore, we believe it is important to view free cash flow as supplemental to our entire statement of cash flows.

(Millions of dollars)	Year Ended – Dec 31, 2023	Year Ended – Dec 31, 2022
Net Cash provided by continuing operations activities (GAAP) ¹	1,748.8	2,180.2
Property additions and dry hole costs	(1,088.0)	(885.5)
Net increase (decrease) in non-cash working capital	99.4	65.7
Acquisition of oil and natural gas properties	(35.8)	(128.5)
Free Cash Flow (Non-GAAP)	746.6	1,131.9

¹ Includes noncontrolling interest in MP GOM

Non-GAAP Financial Measure

Enterprise Value

Presented below is enterprise value (EV), defined as market capitalization plus outstanding indebtedness less cash and cash equivalents. Enterprise value is a non-GAAP financial measure and should not be considered a substitute for other financial measures as determined in accordance with accounting principles generally accepted in the United States of America.

<i>(Millions of dollars except shares outstanding and share price)</i>	Quarter Ended – Sept 30, 2024	Quarter Ended – Sept 30, 2023
Share price	\$33.74	\$45.35
Shares outstanding	145,843,359	154,473,141
Market capitalization	4,920.8	7,005.4
Debt, excluding finance leases	1,276.5	1,572.6
Cash, including marketable securities	(271.2)	(327.8)
Enterprise Value	5,926.1	8,250.2

Glossary of Abbreviations

AECO: Alberta Energy Company, the Canadian benchmark price for natural gas

BBL: Barrels (equal to 42 US gallons)

BCF: Billions of cubic feet

BCFE: Billions of cubic feet equivalent

BN: Billions

BOE: Barrels of oil equivalent (1 barrel of oil or 6,000 cubic feet of natural gas)

BOEPD: Barrels of oil equivalent per day

BOPD: Barrels of oil per day

CAGR: Compound annual growth rate

D&C: Drilling and completions

DD&A: Depreciation, depletion and amortization

EBITDA: Income from continuing operations before taxes, depreciation, depletion and amortization, and net interest expense

EBITDAX: Income from continuing operations before taxes, depreciation, depletion and amortization, net interest expense, and exploration expenses

EFS: Eagle Ford Shale

EUR: Estimated ultimate recovery

F&D: Finding and development

G&A: General and administrative expenses

GOM: Gulf of Mexico

IP: Initial production rate

LOE: Lease operating expense

MBO: Thousands of barrels of oil

MBOE: Thousands of barrels of oil equivalent

MBOEPD: Thousands of barrels of oil equivalent per day

MBOPD: Thousands of barrels of oil per day

MCF: Thousands of cubic feet

MCFD: Thousands of cubic feet per day

MM: Millions

MMBOE: Millions of barrels of oil equivalent

MMCF: Millions of cubic feet

MMCFD: Millions of cubic feet per day

NGL: Natural gas liquids

ROR: Rate of return

R/P: Ratio of reserves to annual production

TCF: Trillions of cubic feet

WI: Working interest

WTI: West Texas Intermediate (a grade of crude oil)

2023 Proved Reserves

Maintaining Proved Reserves and Reserve Life

- Total proved reserves 724 MMBOE at YE 2023 vs 697 MMBOE at YE 2022
 - Achieved 139% total reserve replacement
- Added ~13 MMBOE of proved reserves for Lac Da Vang field in Vietnam
- Maintained proved reserves from FY 2020 – FY 2023 with average annual CAPEX of ~\$1.07 BN, excluding NCI and including acquisitions
- 57% proved developed reserves with 41% liquids-weighting
- Proved reserve life ~11 years

2023 Proved Reserves

Proved Reserves MMBOE

Note: Production volumes, sales volumes, reserves and financial amounts exclude noncontrolling interest, unless otherwise stated
Reserves are based on SEC year-end 2023 audited proved reserves and exclude noncontrolling interest

Benefits of Multi-Basin Portfolio

Oil-Weighted Offshore Assets Generate High-Margin Barrels

World-Class Offshore Operating Capabilities Create Competitive Advantage

- Offshore projects are among the highest-returning investments in portfolio
- Oil-weighted assets generate substantial free cash flow
- Uniquely positioned to benefit from successful exploration
- Industry-leading track record of time from FID to first oil

Ability to Leverage Offshore Operating Capabilities Around the World

- Capable of unlocking value in international opportunities that may be too small for a major but still create significant value
- Strategy of establishing low-cost entries to emerging and frontier basins

Time from FID to First Production Years
