PROXY STATEMENT

March 26, 2001

SOLICITATION

The solicitation of the enclosed proxy is made on behalf of the Board of Directors of Murphy Oil Corporation (the "Company") for use at the Annual Meeting of Stockholders to be held on May 9, 2001. It is expected that this Proxy Statement and related materials will first be mailed to stockholders on or about March 26, 2001.

The complete mailing address of the Company's principal executive offices is 200 Peach Street, P.O. Box 7000, El Dorado, Arkansas 71731-7000.

VOTING PROCEDURES

The affirmative vote of a majority of the shares present in person or represented by proxy at the meeting is required for approval of matters presented at the meeting. Your proxy will be voted at the meeting, unless you (i) revoke it at any time before the vote by filing a revocation with the Secretary of the Company, (ii) duly execute a proxy card bearing a later date, or (iii) appear at the meeting and vote in person. Proxies returned to the Company, votes cast other than in person and written revocations will be disqualified if received after commencement of the meeting. If you elect to vote your proxy by telephone or internet as described in the telephone/internet voting instructions on your proxy card, we will vote your shares as you direct. Your telephone/internet vote authorizes the named proxies to vote your shares in the same manner as if you had marked, signed and returned your proxy card.

Votes cast by proxy or in person at the meeting will be counted by the persons appointed by the Company to act as election inspectors for the meeting. The election inspectors will treat shares represented by proxies that reflect abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum and for purposes of determining the outcome of any other business submitted at the meeting to the stockholders for a vote. Abstentions, however, do not constitute a vote "for" or "against" any matter and thus will be disregarded in the calculation of "votes cast."

The election inspectors will treat shares referred to as "broker non-votes" (i.e., shares held by brokers or nominees as to which instructions have not been received from the beneficial owners or persons entitled to vote and that the broker or nominee does not have discretionary power to vote on a particular matter) as shares that are present and entitled to vote for purposes of determining the presence of a quorum. However, for purposes of determining the outcome of any matter as to which the broker has physically indicated on the proxy that it does not have discretionary authority to vote, those shares will be treated as not present and not entitled to vote with respect to that matter (even though those shares are considered entitled to vote for quorum purposes and may be entitled to vote on other matters).

Unless specification to the contrary is made, the shares represented by the enclosed proxy will be voted FOR all the nominees for director; FOR the proposed amendment to the Company's Certificate of Incorporation; and FOR approval of the appointment of KPMG LLP as the Company's independent auditors.

VOTING SECURITIES

On March 12, 2001, the record date for the meeting, the Company had outstanding 45,057,083 shares of Common Stock, all of one class and each share having one vote in respect of all matters to be voted on at the meeting. This amount does not include 3,718,084 shares of treasury stock. Information as to Common Stock Ownership of certain beneficial owners and management is set forth in the tables on page 5 ("Security Ownership of Certain Beneficial Owners" and "Security Ownership of Management").

ELECTION OF DIRECTORS

The by-laws of the Company provide for eleven directors to be elected on May 9, 2001. The by-laws also provide that the directors elected at each Annual Meeting of Stockholders shall serve until their successors are elected and qualified.

To the extent authorized by the proxies, the shares represented by the proxies will be voted in favor of the election as directors of the eleven nominees whose names are set forth below. If for any reason any of these nominees is not a candidate when the election occurs, the shares represented by such proxies will be voted for the election of the other nominees named and may be voted for any substituted nominees. However, management of the Company does not expect this to occur. All of management's nominees, except for William L. Rosoff and David J.H. Smith, were elected at the last Annual Meeting of Stockholders. Mr. Rosoff and Dr. Smith were elected by the Board on February 7, 2001. All nominees attended a minimum of 75% of the total number of meetings of the Board of Directors and committees on which they served.

#### Compensation of Directors

The Company has a standard arrangement for compensation of directors who are not also employees of the Company. Under this arrangement, for fiscal year 2000, nonemployee directors were compensated at the rate of \$30,000 per annum plus \$1,000 for each meeting attended of the Board, the Audit Committee, the Executive Compensation and Nominating Committee, or the Public Policy and Environmental Committee. The Chairman of the Board is paid the aforementioned plus an additional \$75,000 per annum. No compensation is paid for attendance at meetings of the Executive Committee. The Company also reimburses directors for travel, lodging and related expenses they incur in attending Board and committee meetings.

The Company adopted a retirement plan for nonemployee directors (the "Director Retirement Plan") effective May 1, 1994. The Director Retirement Plan provides a retirement benefit to any nonemployee director with at least five (5) years of service if retirement occurs at or after the age of 72, or with at least ten (10) years of service if retirement occurs prior to the age of 72. The Director Retirement Plan will pay an annual benefit equal to the annual retainer in effect at the time of the director's retirement. Benefits will be paid for a period equal to years of service. Payment of retirement benefits will be in the form of quarterly payments which will commence on the first day of the calendar quarter following the later of the director's attainment of age 65 or actual retirement from the Board. If a director dies prior to retirement from the Board, no benefits will be paid under this plan. In the event a director dies after retirement from the Board, benefits will be paid to the surviving spouse, but in no event will the total of such benefits exceed ten (10) years. If there is no surviving spouse, no benefits will be paid to any other party, beneficiary or estate.

- (1) No stock appreciation rights were granted in 2000.
- (2) Options granted in 2000 vest 50% at the end of two years and 100% at the end of three years from the date of grant and are exercisable for a period of 10 years from the date of grant.
- (3) Values were based on the Black-Scholes option pricing model adapted for use in valuing executive stock options. The actual value, if any, an executive may realize will depend on the excess of the stock price over the exercise price on the date the option is exercised. There is no assurance that value realized by the executive will be at or near the value estimated by the Black-Scholes model. The estimated values under that model are based on arbitrary assumptions as to certain variables and in 2000 included the following:

- . Risk-free rate of return 6.76%
- . Stock volatility 26.06%
- . Dividend yield 2.91%
- . Expected life of option 5 years

Based on the Black-Scholes option pricing model, using the above assumptions, the options granted in 2000 have been valued at \$15.00 per share as of the grant date.

#### COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of the Executive Compensation and Nominating Committee of the Board of Directors of the Company during 2000 were Messrs. Butler, Dembroski, Hart, Hermes, M. W. Murphy and Nolan and Ms. Theus.

## COMPENSATION COMMITTEE REPORT FOR 2000

The Executive Compensation and Nominating Committee (the "Committee") of the Board of Directors of the Company, which is comprised entirely of independent outside directors, has prepared this Compensation Committee Report which describes the guiding principles followed by the Company in establishing its pay practices and reviews compensation decisions which were made during 2000 affecting the Named Executives.

### Executive Compensation Philosophy and Principles

The Company's executive compensation programs and plans are based on principles designed to align the interests of executives with those of stockholders and provide a direct link with the Company's values, objectives, business strategy and financial results. The following general guidelines have been adopted by the Committee and have been used as the basic architecture for all executive compensation and benefit arrangements for the Company:

- . All programs are directed toward attracting and retaining key executives who are critical to the long-term success of the Company and each of its business units and who exhibit a high degree of business responsibility, personal integrity and professionalism.
- . These programs are designed to reward executives for both the short-term and long-term achievements of Company and business unit objectives that lead to the enhancement of shareholder value.
- . All pay and benefit programs are intended to be competitive within each industry segment, with upside opportunity and downside risk linked to the achievement of annual and long-term performance objectives which are regularly reviewed and approved by the Committee.

At the present time, executive compensation programs consist of base salary, an annual cash incentive plan and long-term incentives in the form of both stock options and performance-based restricted stock. The executive benefits that are offered are typical of those provided by others in the industry. Each of these compensation arrangements is briefly reviewed in the following sections.

### Base Salary Practices

The Named Executives and other employees are compensated within established salary range guidelines that are generally based on similar positions in companies that are comparable to the Company in size, complexity, and industry orientation. The actual base pay level for each officer is based on a combination of experience, performance and other factors that are determined to be important by the Committee. Each year, the Company participates in salary surveys within each industry segment and from time to time uses the services of outside consultants to further supplement its competitive information. The petroleum industry survey in which the Company participates contains over twenty-five corporations that the Committee believes are representative of the Company's labor market for management talent. The survey is conducted by a major compensation consulting firm. Many of the companies in the survey group are included in the S&P Oil (Domestic Integrated) Index line on the performance graph as shown on page 12. The Committee generally targets the base salary of most officers to be at or near the median (50th percentile) of the competitive market. The actual salaries and the amount of increases for 2000 for the Named Executives were near the median

9

levels of the salaries in the referenced survey. The base salary of most officers is reviewed annually, with the amount of any increases reflecting factors such as Company performance, general economic conditions, marketplace compensation trends and individual performance. In determining base salary and increase in salaries, the most important criteria in the Committee's analysis are marketplace comparisons and individual performance. Overall corporate performance, including the Company's improvement in earnings and total shareholder return, were also considered by the Committee in making salary adjustments in 2000.

### Annual Incentive Compensation Program

The Company restructured its annual incentive compensation plan in 1996. The

plan concept follows many of the precepts of economic value added and measures the Company's ability to earn a return on capital that exceeds the weighted average cost of capital as well as the improvement in the Company's return on capital. The specific performance measure used for the 2000 performance year was developed based upon a projection of the Company's weighted average cost of capital. All participants in the plan, including the Named Executives, were measured on this corporate-wide measure of Company performance. In 2000, the Company met its return on capital employed performance target and therefore achieved its targeted payout. As a result, the Named Executives received annual incentive awards for the 2000 plan year under the plan's formula.

#### Long-Term Incentive Compensation

Under the 1992 Stock Incentive Plan (the "1992 Plan") as approved by the Company's stockholders, long-term incentives may be provided through stock options, stock appreciation rights and performance-based restricted stock, all designed to increase the stock ownership of management and link these key individuals directly to stockholders. All long-term incentive awards granted during 2000 were granted under the 1992 Plan. Where appropriate, the Committee uses the Black-Scholes option valuation model to determine the expected value of stock options. Under the 1992 Plan, the Committee may award up to one percent of the total issued and outstanding shares as of December 31 of the immediately preceding year for executive long-term incentives. The 1992 Plan also has a carry forward feature which allows the Committee to use unawarded shares from years that were below the threshold to grant awards in a particular year that may exceed this utilization level. In 2000, the Company made grants which were .88% of total Company shares outstanding.

A stock option granted under the 1992 Plan gives the executive the right to purchase a specified number of shares of the Company's Common Stock at an option price equal to the market price on the date the option was granted. Options, which may be either nonqualified stock options or incentive stock options, vest 50% at the end of two years and 100% at the end of three years from the date of grant and are exercisable for a period of 10 years from the date of grant. The size of option grants awarded each year is based on competitive practices in general industry using comparative data provided by a major compensation consulting firm. The Company's stock option grants in 2000 were generally between the 25th and 50th percentile levels of general industry practices. In addition, the Committee considers the total number of grants each executive has been awarded in recent years in determining whether to grant additional stock options or performance-based restricted stock. Nonqualified stock options were granted in 2000 to certain Named Executives; however, no stock appreciation rights were granted in 2000.

On a biennial basis, the Company may grant performance-based restricted shares to key executives, including the Named Executives. These restricted share grants are totally performance-based in that the restrictions will only be lifted and the shares earned in the event that the Company meets or exceeds its performance target. The performance target for restricted share grants is the Company's total shareholder return as compared to a selected peer group of integrated oil and gas companies over a stated performance period. During this five year performance period executives are extended voting and dividend rights on their restricted shares. No performance-based restricted shares were granted in 2000 to the Named Executives.

In 1997, the stockholders of the Company approved an amendment to the 1992 Plan to limit the number of awards to any one individual and to specify the performance criteria for performance-based restricted shares in compliance with Section 162(m) of the Internal Revenue Code.

#### Discussion of 2000 Compensation for the President and Chief Executive Officer

Claiborne P. Deming served as President and Chief Executive Officer of the Company for fiscal year 2000. During 2000, the Committee made the following determinations regarding Mr. Deming's compensation:

Mr. Deming received a base salary adjustment during 2000. With this salary adjustment, Mr. Deming's base salary approaches the median (50th percentile) of the competitive market as reported to the Committee by a major consulting firm.

As noted earlier, the Company restructured its annual incentive compensation

plan in 1996 to focus upon financial performance, as measured by return on capital employed, which should lead to the enhancement of shareholder value. As a participant in the plan, Mr. Deming earned an annual incentive award of \$650,000. The performance criteria of the plan was the Company's 2000 return on capital employed. The incentive award in combination with the CEO's base salary, takes the CEO's total annual cash compensation above the \$1,000,000 Section 162(m) limit. Therefore a small portion of the annual incentive award will not be tax deductible for the year 2000. The Committee feels the amount in question is de minimis and not materially detrimental to the Company's financial performance for the year.

In 2000, Mr. Deming received a grant of 30,000 nonqualified stock options at an exercise price of \$56.9688, which was the fair market value of the Company's stock on the date of the grant. These options will vest 50% two years from the date of grant and 100% three years from the date of grant. The option grant was made in recognition of both Mr. Deming's performance and that of the Company in 1999 and early 2000. Mr. Deming's grant was below the 25th percentile of competitive practice based upon survey data provided by a major compensation consulting firm. The compensation consulting firm assisted the Committee in determining the size of the stock option grant to Mr. Deming and all other Company executives.

The Executive Compensation and Nominating Committee members during 2000 were, and this Compensation Committee Report is submitted by, Messrs. Butler, Dembroski, Hart, Hermes, M. W. Murphy, Nolan, and Ms. Theus.

As of January 1, 1992, employees of Murphy Exploration & Production Company, formerly named Ocean Drilling & Exploration Company (ODECO), began participating in the Company's plans. Prior to that time such employees participated in similar plans of ODECO. Employees of the Company or one of its 100% owned subsidiaries who were previously included in the ODECO Retirement Plan may receive a benefit upon retirement which is based on a combination of the Company and ODECO plans. The following table indicates the estimated annual benefit computed on a straight life annuity basis payable, at age 65, under the ODECO plan for the salary and length of service indicated:

It is not feasible to calculate the specific amount attributable to the plans in respect to each employee. The Company had no required contributions to the retirement plans in 2000 and therefore no contributions were made.

AMENDMENT TO CERTIFICATE OF INCORPORATION TO AUTHORIZE ADDITIONAL SHARES OF COMMON STOCK

At a meeting held on February 7, 2001, the Board of Directors of the Company adopted a resolution proposing an amendment to the Company's Certificate of Incorporation to increase the number of authorized shares of Common Stock from 80,000,000 to 200,000,000. The full text of the proposed amendment is attached hereto as Exhibit A.

The Board of Directors recommends this increase in the number of authorized Common shares to the stockholders so that the additional shares would be readily available if an opportunity should present itself for the Company to acquire assets by exchanging Common shares, or so that capital might be increased, if appropriate, by the issuance and sale of additional Common shares, or if the Board of Directors should in the future determine it to be advisable to distribute additional Common shares to the stockholders by way of stock dividends. The Board of Directors does not at this time contemplate any transaction in which additional Common shares would be exchanged, sold or issued but believes it would be in the best interests of the stockholders for the Board of Directors to have the discretion to issue additional shares if an opportunity requiring the issuance of such shares should arise.

The Common stockholders will not, under Delaware law and the Company's Articles of Incorporation, have any preemptive rights to subscribe for additional shares of Common stock. Additional shares could be issued without any further authorization by Common stockholders and the Board of Directors does not now contemplate that any further authorization from stockholders will be solicited, with respect to the issuance of the shares which would be authorized by the proposed amendment.

The Board of Directors recommends a vote FOR the proposed amendment.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors of the Company has been established to implement and to support the Board's oversight function with respect to the Company's financial reporting, accounting policies, internal controls and independent outside auditors. The Audit Committee Charter, adopted by the Board on May 10, 2000, is included as Exhibit B to this Proxy Statement. The Audit Committee met six times in 2000. All of the members of the Audit Committee are independent under the rules of the New York Stock Exchange.

In connection with the December 31, 2000 financial statements, the Audit Committee reviewed and discussed the audited financial statements with management; discussed with the auditors the matters required by Statement on Auditing Standards No. 61; and received and discussed with the auditors the matters required by Independence Standards Board Statement No. 1 and considered the compatibility of non-audit services with the auditor's independence. Fees for services provided by the Company's principal accountant, KPMG, for the fiscal year ended December 31, 2000 were as follows:

Audit Fees -----	Financial Information Systems Design And Implementation Fees -----	All Other Fees -----
\$525,000	\$-0-	\$532,000

Based on these reviews and discussions, the Audit Committee recommended to the Board that the Company's audited financial statements be included in its Annual Report on Form 10-K for the year ended December 31, 2000.

The Audit Committee members during 2000 were Messrs. Dembroski (Chairman), Hart and Nolan.

APPROVAL OF APPOINTMENT OF INDEPENDENT AUDITORS

The Board of Directors desires that the stockholders indicate their approval or disapproval of the Board's action in appointing KPMG LLP, Certified Public Accountants, as independent auditors of the Company for the year 2001. KPMG LLP has been serving the Company and its subsidiaries as independent auditors for many years. The firm has advised the Company that its members have no direct or indirect financial interest in the Company or any of its subsidiaries. Members of the firm are expected to be present at the Annual Meeting for the purpose of responding to inquiries by stockholders, and such representatives will have an opportunity to make a statement if they desire to do so.

In the event a majority of the stockholders voting should indicate disapproval of the appointment of KPMG LLP, the adverse vote will be considered as a directive to the Board of Directors to select other auditors for the following year. Because of the difficulty and expense of making any substitution of auditors during a year, it is contemplated that the appointment for 2001 will be permitted to stand unless the Board finds other good reason for making a change.

The Board of Directors recommends that shareholders vote FOR approval of the appointment of KPMG LLP as independent auditors for the year 2001. Proxies solicited on behalf of the Board will be voted FOR this proposal.

#### STOCKHOLDER PROPOSALS

Stockholder proposals for the Annual Meeting of Stockholders in the year 2002 must be received by the Company at its executive offices on or before December 3, 2001 in order to be considered for inclusion in the proxy materials.

#### OTHER INFORMATION

The management of the Company knows of no business other than that described above that will be presented for consideration at the meeting. If any other business properly comes before the meeting, it is the intention of the persons named in the proxies to vote such proxies thereon in accordance with their judgment.

The expense of this solicitation, including cost of preparing and mailing this Proxy Statement, will be paid by the Company. Such expenses may also include the charges and expenses of banks, brokerage houses and other custodians, nominees or fiduciaries for forwarding proxies and proxy material to beneficial owners of shares.

The above Notice and Proxy Statement are sent by order of the Board of Directors.
